Legal Disclaimer

PLEASE READ THIS ENTIRE SECTION AND DO NOT TAKE ANY ACTIONS UNTIL YOU FINISH IT. THIS WHITEPAPER IS A SUMMARY OF THE “GONFTY” BUSINESS MODEL, TECHNOLOGY, AND BRIEF INTRODUCTION TO ITS BUSINESS PRINCIPLES. IF YOU ARE IN ANY DOUBT AS TO THE ACTIONS RELATED TO THE ACQUISITION OF GONFTY TOKENS, YOU SHOULD CONSULT YOUR LEGAL, FINANCIAL, TAX OR OTHER PROFESSIONAL ADVISOR(S) AND IMMEDIATELY NAVIGATE AWAY FROM GONFTY’S WEBSITE AND DO NOT BECOME A GONFTY TOKEN HOLDER.

The information provided in this whitepaper has been issued on behalf of the GONFTY Foundation (or “the Foundation”), which is planned to be established in Switzerland. It has been prepared solely for informational purposes and should not be construed as an offer to buy or sell or a solicitation of an offer to buy or sell any security or instrument or any asset or to participate in any transaction or trading activity. The contents are based upon or derived from information generally believed to be reliable although no representation is made that it is accurate or complete and the Foundation accepts no liability with regard to the reader’s reliance on it.

Participants in the token sale cannot rely on any of the information herein and must assess on their own, as the case may be together with their advisers, whether they are willing and in a position to bear the significant risks associated with a purchase of tokens, including the GONFTY tokens.

GONFTY reserves the right to change the terms and conditions (including the point in time of the GONFTY token sale and the number and price of the GONFTY tokens available) at any time without prior notice. Furthermore, GONFTY also reserves the right to terminate the process leading to the GONFTY token sale, respectively the GONFTY token sale at all, at any time.

Legal Disclaimer

KYC CRITERIA

You are not allowed to participate in the GONFTY token sale if you are located, incorporated, or otherwise established in, or a citizen or resident of:

Afghanistan, Angola, Aruba, Bangladesh, Belarus, Benin, Bhutan, Bolivia, Bosnia, Botswana, Brunei Darussalam, Burkina Faso, Burundi, Cambodia, Cameroon, Cape Verde, Central Africa republic, Chad, China, Comoros, Congo, Congo Democratic republic, Cote d'Ivoire, Cuba, Djibouti, Dominica, Ecuador, Egypt, El Salvador, Equatorial Guinea, Eritrea, Ethiopia, Gabon, Gambia, Ghana, Guatemala, Guinea, Guinea Bissau, Guyana, Haiti, Honduras, Iran, Iraq, Jordan, Kenya, Kyrgyz Republic, Laos, People's Republic Lesotho, Lebanon, Liberia, Libya, Madagascar, Malawi, Maldives, Mali, Mauritania, Micronesia, Moldova, Mongolia, Montenegro, Mozambique, Myanmar, Nauru, Nepal, New Caledonia, Nicaragua, Niger, Nigeria, Niue, North Korea, Oman, Pakistan, Palestinian Areas, Papua New Guinea Reunion, Rwanda, Samoa, Sao Tome and Principe, Senegal, Serbia, Sierra Leone, Somalia, South Georgia, South Sudan, Sri Lanka, Sudan, Suriname, Swaziland, Syria, Tajikistan, Tanzania, Timor, Togo, Tonga, Trinidad and Tobago, Tunisia, Turkmenistan, Ukraine, Uganda, USA, Uzbekistan, Venezuela, Western Sahara, Yemen, Zambia, Zimbabwe.

GONFTY

Introducing you to the Metaverse

Market Opportunity

Metaverse Industry Landscape

The Metaverse is the gradual convergence of the digital world with the physical world. A convergence in a way that is persistent, real-time rendered and infinite in its ability to offer shared experiences allowing for total sense of presence.

Virtual identities will become interchangeable with physical identities and new economies will form around this immersion into virtual/augmented realities. The effects on our lives will be profound creating a world where we no longer notice a distinction between our digital avatars and our physical selves.

This evolution originated mostly out of accumulation of technology in the video game industry but is now transcending it leading to a world where smart lenses and BCI devices enable us to be surrounded by information – interactive information for work, entertainment, education, and more.

The economic opportunities of this next iteration of the internet will be immeasurable.

Our Vision

Mission statement

GONFTY is a metaverse & blockchain gaming infrastructure project building an industry leading integrated NFT web3 on-chain gaming metaverse platform ecosystem. We like to refer to ourselves as 'the Netflix for the metaverse & blockchain gaming' – our end game is to have a compelling, industry-leading infrastructure platform housing a suite of high-quality interoperable, independent blockchain games co-existing within our metaverse infrastructure for end-users to navigate and play.

Our mission is simple; to unleash tomorrow's virtual economy by unlocking the full potential of NFTs in the metaverse. To do this we are breaking the barriers to entry and facilitating the creation of new economic models for value-creation and next gen innovation in the metaverse and blockchain gaming. We aim to scale the metaverse and digital gaming economy ushering a new age of true power to the players and content creators.

Lead

To be the leading integrated digital platform ecosystem facilitating the next generation of NFT value-creation in the metaverse

Decentralize

To be the preferred decentralized, non-custodial, long-term partner for community networks engaging with the cross-sectional NFT gaming metaverse sector

Contribute

To contribute to the sustainable growth of the virtual economy with accessible and user-friendly NFT innovation on a scalable, high TPS blockchain

Green

To be the greenest, fastest, and highest TPS (transactions-per-second) blockchain enabling superior FPS (frames-per-second) gaming development on-chain with enhanced gaming experience

Ecosystem Vision

Introducing our Metaverse vision:

GONFTY
World

Our vision on use-cases: features of metaverse economy & what you can do?

1. NFT minted virtual real estate & infrastructure

- **land** – buy / sell / develop
- **residential properties** – buy / sell / lease / renovate
- **commercial properties** – buy / sell / lease
- **landmarks** (venues / sports stadiums)
- **space shuttles** – interplanetary colonization
- **time machines** – travel in time and build

2. NFT minted digital collectibles & experiences

- **digital wearables** – your favorite fashion brands
- **digital vehicles**
 - automotive industry brands
 - marine industry brands
 - aviation industry brands
- **digital art** – artists / art galleries
- **digital entertainment**
 - film studios / independent content creators
 - Sporting leagues
 - musicians / record labels
- **digital experiences**
 - Concerts / film premiers / sporting events
 - Product launches / unveiling (VR)
 - Launch VR/AR Hardware

3. Integrated and interoperable gaming

play2earn games (with interoperable NFT in-game assets, e.g., avatars; skins, digital wearables)

Our Technology

Platform ecosystem
architecture

Our Technology

PROTOCOL LAYER:

NFTY Chain (Beta Version)

Our native blockchain (NFTY Chain) is a blockchain built on **substrate** which is **natively compatible** with the **Polkadot ecosystem**; and is the on-chain foundation of our GONFTY ecosystem platform.

NFTY chain can become a parachain that uses Polkadot Relay Chain validators for its consensus, while allowing GONFTY to have an independent economic framework, data, and state. Our native blockchain is a hard fork of substrate core and its official pallets, which makes it compatible with Polkadot ecosystem, but nonetheless enables NFTY Chain to maintain its independence to develop tailormade pallets to serve its' clients.

NFTY Chain aims to be a **next generation blockchain**, an enabler for future games. Not only will it be environmentally aware, but also self-aware by incorporating AI to make it a self-managing and self-optimizing blockchain.

NFTY Chain.
The NFT Chain of Choice.
For **Polkadot Ecosystem.**

Polkadot is a blockchain framework that enables a completely decentralized internet of parachains where users are in control of their identity and data. The Polkadot network is designed to operate two types of blockchains:

1. **Relay Chain:** The core of Polkadot, responsible for the network's shared security, consensus, and cross-chain interoperability; and
2. **Parachains:** Sovereign blockchains that use the relay chain's computing resources to confirm that transactions are secure and accurate

Our Technology

NFTY Chain.
The NFT Chain of Choice.
For **Polkadot Ecosystem.**

Application layers

Gamebench

GONFTY Gamebench is the gaming launchpad which is composed of a set of SDKs for gaming developers to build their games and dApps on our blockchain. Essentially, the Gamebench is an SDK wrapping communication layer on the core protocol. This SDK enables gaming developers to adapt NFTY Chain functionalities in their game engine of choice.

NFT Mint and Marketplace

One of the key components of the Metaverse is the ability to create and offer NFTs. GONFTY Market is an NFT minting and marketplace platform which in essence, is a vanilla interface and set of APIs on NFTY Chain enabling these functionalities for the GONFTY World and others to make use of.

DEX

GONFTY DEXswapp is another pre-built dApp created on NFTY Chain, which is a decentralized exchange enabling users to transfer and exchange their assets freely and in a decentralized and trust-less manner. The web app built on NFTY Chain consist of an exchange; liquidity pool; trade pool; and locking mechanism. Users can swap and exchange their assets, provide a liquidity and trading pool, and lock their assets.

Our Economy

Metaverse economy

It's time. Be an inter-planetary, inter-dimensional, time-traveling species.

Traverse the metaverse.

GONFTY.world

Reality re-imagined.

Core Infrastructure

- Virtual Real Estate
- Ad space
- Space shuttles
- Time machines

NFT assets

- Avatars
- Digital wearables
- Digital transport
