

# GONFTY

Introducing you to the Metaverse

A Polkadot Compatible Metaverse Infrastructure Project.  
Building the 'Netflix' for the Metaverse, NFTs & Gaming.

**GONFTY Gamebench**

Our Gaming Launchpad with bundled SDKs for gaming developers to create gaming dApps on our platform and integrate with our Metaverse

**GONFTY Market**

Our NFT Market with an NFT generator and auction-place to mint, buy and sell NFTs, which can be used within the gaming ecosystem as personalised in-game assets

**GONFTY World**

All platform components will feed into GONFTY World, our metaverse, to create a virtual world for end users to interact with. Interoperable gaming will be possible allowing in-game assets to be ported across into different games

**GONFTY Wallet**

Our non-custodial wallet with human-readable addresses linked to user account and username to store in-game NFT assets on our platform

**GONFTY DEXswapp**

Our integrated gamified decentralized exchange to swap in-game assets directly with other players within the gaming dApps on the platform
